

Staff vacancies at West Ridge Veterinary Practice

May 2021

Equine Vet

Our equine department has a vacancy for a full time equine vet. We would be able to accommodate a mixed practitioner with a particular interest in equine work if that is preferable.

The role would be to help provide the excellent clinical work currently undertaken in this expanding and respected equine part of West Ridge.

There can be some flexibility on the work balance, days worked, and the level of experience.
